

Characteristics

APPLICATIONS

- Telemetry, Tracking & Control (TT&C)
- Micro/Mini Satellite control
- Launcher control
- Inter Satellites communication (ISL)
- Deep Space mission

BENEFITS & KEY FEATURES

- High performances
- CCSDS compliant
- Low Consumption
- ITAR Free

QUALITY & RELIABILITY

- High reliable New Space design
- Radiation tested & hardened
- 7 year life-time LEO missions
- Based on renown and proven EWC15 & EWC15-C

NETWORKS / GROUND

- CCSDS, Spaceflight Industries, KSAT, NEN, SSC, Atlas, RBC Signals, ...
- Zodiac Data Systems, Kratos / RT Logic, ...
